MISSION STATEMENT

The National Association of Fundraising Ticket Manufacturers (NAFTM) is a trade association of companies that manufacture pull tabs, bingo paper, and related supplies for the North American charitable gaming industry.

The association keeps members informed of gaming laws, regulations, and enforcement practices, and works to improve product standards in the industry. The NAFTM Seal, when affixed to any gaming product, ensures its recipient of a product that meets or exceeds any state standard, as well as the standards established by the North American Gaming Regulators Association (NAGRA). NAFTM also works closely with charitable organizations and, in cooperation with Allied Charities of Minnesota (ACM), has published “Charity Gaming: An Association Guidebook” available to charities interested in developing a charity gaming association in their state or province.

For more information, please visit our website at www.naftm.org

LETTER FROM THE PRESIDENT

The National The National Association of Fundraising Ticket Manufacturers (NAFTM) is a trade association of companies that manufacture pull tabs, bingo paper, bingo equipment and related supplies for the North American Charitable Gaming industry.

NAFTM members provide products to thousands of charitable organizations to help them generate funding for nearly every sort of charitable and community activity one can imagine. Our products support local needs and local people. Charitable gaming allows communities to have fire and rescue vehicles, parks and playgrounds; it allows kids to play sports, go to camp and discover art and music; it helps parishes provide quality education; it builds community centers, funds programs for senior citizens, and the physically and mentally challenged; and it provides much needed services to our veterans and military families.

Charitable gaming has contributed billions of dollars to communities all across North America. Although it comprises only a small portion of the total gaming industry, charitable gaming provides direct benefits to virtually every corner of every state and province.

We are pleased to present the NAFTM Annual Report on Charity Gaming in North America for calendar year 2010. A report we have published for more than 25 years. We offer our appreciation to the many dedicated State and Provincial regulatory agencies who have provided information for this report. We hope the information in this report will provide insight and perhaps provide an idea, inspire an action or offer direction to continued growth and improvement in the Charitable Gaming Industry. The NAFTM Report is the only comprehensive collection of charitable gaming information published in North America and it exists because of the effort of all who contributed.

Thank you for your support.

Roger Franke

INTRODUCTION

Established in 1983, the National Association of Fundraising Ticket Manufacturers is a trade association of manufacturers of pull tabs, bingo paper, and related supplies used by charities in fundraising events.

The members of NAFTM are dedicated to the promotion of charitable gaming as a profitable activity for charities to raise funds for their activities. In addition, NAFTM's membership is dedicated to the continual improvement of the charitable gaming industry through the pursuit of manufacturing and trade practices that meet or exceed governmental regulations. Effective regulation of charitable gaming is necessary for the health of the charities that depend on its revenue, and NAFTM's membership supports and encourages effective government regulation.

NAFTM's services include the gathering of statistical and other information about the industry in an effort to supply the public, regulators, legislators and other interested parties with the best possible picture of charitable gaming. The information is published in an annual report, and this 2010 report reflects the most recent information about the industry. The report has

consistently been a valuable tool for the many individuals and agencies that support efforts to improve charitable gaming in the United States and Canada.

Readers of the annual report will be able to find out how extensive charitable gaming is in the United States and Canada, and how much revenue is derived from the activity by charities. The number of licensees, taxation schemes, regulatory agency staffing, and law and regulation citations are contained in the report. The report also contains a list of contacts for those who require additional detail or information.

Report readers may also contact us directly to discuss any matter pertaining to charitable gaming and the contents of this report.

NAFTM is grateful to the many agencies and individuals who supplied statistics and other information for this report. Thank you for your assistance in our effort to publish the only comprehensive report on charitable gaming in North America.

Complete game data not included in this report because (1) charity gaming is not permitted; (2) there is no central regulatory or reporting authority; (3) the activity is unregulated; or (4) there was no response to the survey questionnaire.

TERMINOLOGY

WHAT IS BINGO?

"Bingo!" has become such a familiar term it extends beyond bingo hall doors into a phrase of excitement used around the world. Still the traditional way in which game participants express winning in a bingo game, it is also used to express surprise or sudden satisfaction.

The game itself has been around for centuries, its most recent origins being traced to 16th century Italy. Originally called "beano" in the nineteenth and early twentieth centuries, it became a short linguistic hop to term the game "bingo." "Bingo" is now the universally understood term to describe a game in which game participants compete against each other for prizes to be awarded on the basis of designated numbers or symbols on a bingo card that conform to numbers or symbols selected at random. "Gross Receipts" is the total amount of money spent on a charity game by game participants. In a bingo game, it is the total amount wagered through the purchase of bingo cards. Pull tab games use the term to describe the total amount of money wagered through the purchase of all the pull tabs in a game. "Net Proceeds" is the amount of money left after the prizes and expenses have been paid. In most instances taxes and fees are paid from the net receipts. Thus, the balance would be the profit to the charity.

WHAT IS A PULL TAB?

Pull tabs are an integral part of the game of bingo.

Officially, a "pull tab" is a folded or banded ticket, or a card with perforated tabs on one side, made completely of paper products, the face of which is covered or hidden to conceal numbers, symbols or letters. Some of the configurations of numbers, symbols or letters have been designated in advance by the manufacturer as prize winners. Game participants open the tickets or perforated tabs and compare the configurations with game information sheets called "flares" to determine whether a particular ticket or pull tab is a winner.

The history of pull tabs is not nearly as extensive as that of bingo. They emerged in the 1970s as a popular fundraising game for charities and found easy acceptance in bingo games. They spread to other locations, such as fraternal clubs, service clubs and veterans' organizations and in several states, into taverns.

By any other term, pull tabs are fun to play and have proved to be profitable for charities. They are also called break-open tickets, charity game cards, jar tickets, pickle cards, instant bingo cards, punch boards, bell jars and lucky sevens in various regions in the United States and Canada.

OTHER TERMS USED IN THIS REPORT

"Gross Receipts" is the total amount of money spent on a charity game by game participants. In a bingo game, it is the total amount wagered through the purchase of bingo cards. Pull tab games use the term to describe the total amount of money wagered through the purchase of all the pull tabs in a game.

"Net Proceeds" is the amount of money left after the prizes and expenses have been paid. In most instances taxes and fees are paid from the net receipts. Thus, the balance would be the profit to the charity.

Explanation – Receipts by Games Table

This table will provide the reader with a breakdown on how much is wagered by state or province in bingo, pull tabs, raffles and other games sponsored by charities ("gross receipts"). It will also identify the amount of money ("net proceeds") charities will have derived from the play of those games during the 2009 fiscal year for that jurisdiction, and which they may use for their programs. Finally, a calculation is made to show the percentage of net proceeds to gross receipts so the reader may make comparisons among the reporting jurisdictions.

Explanation – Fees and Taxes: States and provinces use widely varying methods to assess fees and taxes for the costs of government to regulate charitable gaming and other government programs. The term “fee” is not only used to describe the amount of money charities and suppliers pay for a license to engage in charitable gaming activities, it is also used to encompass “administrative fees” calculated in some jurisdictions as a percentage of various amounts, much like a “tax.” The widely varying practices have led to confusion in attempting to calculate meaningful comparisons. Reporting jurisdictions react differently when confronted with questions pertaining to “fees.”

The table entitled “Fees and Taxes” uses the term “fees” to encompass both license fees and administrative fees in order to reach a figure that represents the total amount raised in a particular jurisdiction. The table entitled “Licensing Methods and License Fees” uses the term “fees” to encompass only the method by which a jurisdiction assesses an amount to obtain a license, and not the percentage-based “administrative fees.” The table entitled “Taxation and Administrative Fee Methods” uses the term “fee” to encompass those administrative fees which are calculated on a percentage basis, and thus look more like the traditional “taxes,” which are also described in the table.
